- Registering in Progress.... 3. Follow Steps 2 and 3 under For AT&T models with **F/HANDSET LOCATOR** button on the telephone base section.

For AT&T SynJ® business phone

- 1. Press **MENU** on the telephone base when
 - 2. Scroll to **Registration**, and then press ENTER twice to select Register HS. The telephone base shows **Registering new** device.... It takes up to 60 seconds to complete the registration
 - Place the headset in the headset charger. The telephone base shows **Cordless** headset registered and beeps when the registration is successful.

4. Lift the headset, then press **ON/OFF** key on

the headset. If you hear a dial tone and the extension icon also appears on the telephone base, the registration was successful. If you have a dial tone but an extension number other than 0 displays on the telephone base, the headset is registered as a handset and will not function properly. If this is the case, you must deregister and start over. See Replace a headset section.

Replace a headset

f you want to replace a headset or reassign the designated headset number of a registered headset, you must deregister all handsets and headsets that are registered to the same telephone base. Then register each handset and headset individually.

To deregister all headsets:

To deregister all headsets from the telephone base, follow the instructions in the user's manual of your telephone system, or visit our website at www.vtechphones.com or AT&T's website at www.telephones.att.com. This operation will deregister all the

DECT handsets, headsets, and cordless speakerphones, regardless of their battery status and whether they are within range or If the deregistration process is successful, you

hear "Not registered" when you press ON/OFF key on the headset. If the deregistration fails, you may need to reset the telephone or headset, and then try again. **⊘**NOTE

 You cannot deregister a headset if any system handset or headset is in use.

• Unplug the power from the telephone base, then plug it back in.

osition the headset

There are four earbuds and four earhooks provided. One earbud and one earhook have been attached to the headset

You can choose a suitable size of earbud, earhook and an appropriate way to position your

Replace the pre-installed earbud and earhook: 1. Hold both sides of the earbud. Twist and pull

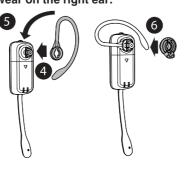

the earbud until it separates from the earpiece

Rotate the earhook to vertical direction and then pull the earhook until it separates from the headset

3. Attach a earhook, and then a suitable earbud to the headset until they fit into place. To wear on the right ear:

4. Wrap the earhook with the sponge.

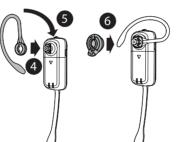

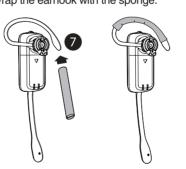

Adjust the headset to wear on the ear:

 Hook the headset on your ear. Adjust the angle of the headset until the microphone is pointing towards your mouth. Firmly grip the headset with one hand whenever adjusting the headset microphone up or down.

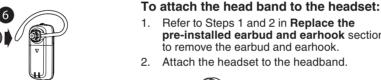

Over the head band

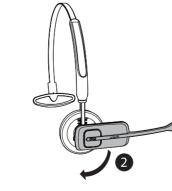

Rotate the headset to vertical direction until it

FCC, ACTA and IC regulations

FCC Part 15

NOTE: This equipment has been tested and found to comply with the requirements for a Class B digital device under Part 15 of the Federal Communications Commission (FCC) rules. These requirements are intended to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radic frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following

 Reorient or relocate the receiving antenna. Increase the separation between the

measures:

- equipment and receiver.

Limited warranty

What does this limited warranty cover?

The manufacturer of this VTech Product warrants to the holder of a valid proof of purchase ("Consumer" or "you") that the Product and all accessories provided in the sales package ("Product") are free from defects in material and workmanship, pursuant to the following terms and conditions, when installed and used normally and in accordance with the Product operating instructions. This limited warranty extends only to the Consumer for Products purchased and used in the United States of America and Canada

What will VTech do if the Product is not free from defects in materials and workmanship during the limited warranty period ("Materially Defective Product")?

authorized service representative will repair or replace at VTech's option, without charge a Materially Defective Product. If we repair the Product, we may use new or refurbished replacement parts. If we choose to replace the Product, we may replace it with a new or refurbished Product of the same or similar design. We will retain defective parts, modules, or equipment. Repair or replacement of the Product. at VTech's option, is your exclusive remedy. VTech will return t Products to you in working condition. You should expect the repair or replacement to take approximately 30 days.

How long is the limited warranty period? The limited warranty period for the Product extends for ONE (1) YEAR from the date of purchase. If VTech repairs or replaces a Materially Defective Product under the terms of this limited warranty. this limited warranty also applies to the repaired or replacement Product for a period of either (a) 90 days from the date the repaired or replacement Product is shipped to you or (b) the time remaining on the original one-year warranty; whichever is lonaer.

What is not covered by this limited warranty? This limited warranty does not cover:

- Product that has been subjected to misuse. other liquid intrusion; or
- to repair, alteration or modification by anyone other than an authorized service representative of VTech; or

- experienced is caused by signal conditions, network reliability, or cable or antenna systems: or 4. Product to the extent that the problem is
- 6. Product purchased, used, serviced, or shipped for repair from outside the United States of America or Canada, or used for commercial or institutional purposes (including but not limited to Products used for rental purposes); or
- 7. Product returned without a valid proof of purchase; or
- of customer controls, and installation or repair of systems outside the unit.

visit our website at www.vtechphones.com or www.vtechcanada.com or call 1 (800) 267-7377 NOTE: Before calling for service, please review

the user's manual - a check of the Product's

controls and features mav save vou a service ca Except as provided by applicable law, you assume the risk of loss or damage during transit and transportation and are responsible for delivery or handling charges incurred in the transport of the Product(s) to the service location. VTech will return repaired or replaced Product under this limited warranty. Transportation, delivery or handling charges are prepaid. VTech assumes no risk for damage or loss of the Product in transit. If the Product failure is not covered by this limited warranty, or proof of purchase does not meet the terms of this limited warranty, VTech will notify you and will request that you authorize the cost of repair prior to any further repair activity. You must pay for the cost

of repair and return shipping costs for the repair

of Products that are not covered by this limited

and the battery charger.

Other limitations

This warranty is the complete and exclusive agreement between you and VTech. It supersed all other written or oral communications related to this Product. VTech provides no other warrantie for this Product. The warranty exclusively descri all of VTech's responsibilities regarding the Product. There are no other express warranties No one is authorized to make modifications to the limited warranty and you should not rely on any such modification

State/Provincial Law Rights: This warranty gives you specific legal rights, and you may also have other rights, which vary from state to state or province to province.

Limitations: Implied warranties, including those of fitness for a particular purpose and merchantability (an unwritten warranty that the Product is fit for ordinary use) are limited to one year from the date of purchase. Some states/ provinces do not allow limitations on how long an implied warranty lasts, so the above limitatio may not apply to you. In no event shall VTech be liable for any indirect, special, incidental, consequential, or similar damages (including, but not limited to lost profits or revenue, inability to use the Product or other associated equipment. the cost of substitute equipment, and claims by third parties) resulting from the use of this Product. Some states/provinces do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

Please retain your original sales receipt as proof of purchase

To activate the CEC battery charging testina mode: Before proceeding, make sure the headset

- battery has enough charge and the headset charger is connected to power. Press VOL+, ON/OFF key, VOL-, ON/OFF
- key, VOL+, VOL- and ON/OFF key.

MNOTES

When the headset successfully enters the CEC battery charging testing mode, the ON/OFF light on the headset flashes slowly and alternately in red and blue. Press ON/OFF key and you hear "Not registered." Then put the headset in the headset charger for charging.

electronic devices.

When the headset fails to enter this mode, repeat Step 1 to Step 2 above.

To deactivate the CEC battery charging testing mode:

- 1. Before proceeding, make sure the headset battery has enough charge. Make sure the telephone base and headset charger are connected to power
- 2. Register the headset back to the telephone base. See Add and register a headset for headset registration instructions

For C-UL compliance only

Afin de réduire les risques d'incendie, de blessures corporelles ou d'électrocution, suivez toujours ces mesures préventives de base lorsque vous utilisez votre téléphone

- Lisez et comprenez bien toutes les instructions.
- 2. Observez toutes les instructions et mises en garde inscrites sur l'appareil.
- Débranchez ce téléphone de la prise mural avant de le nettoyer. N'utilisez pas de nettoveurs liquides ni en aérosol. N'utilisez qu'un chiffon doux et légèrement humecté.
- 4. N'utilisez pas ce produit près de l'eau, tel que près d'un bain, d'un lavabo, d'un évier de cuisine, d'un bac de lavage ou d'une piscine, ou dans un sous-sol humide ou sous la douche.
- Ne déposez pas ce téléphone sur un chariot, support ou table chancelants. L'appareil pourrait tomber et être sérieusement endommagé. 6. Le boîtier de l'appareil est doté de fentes et
- d'ouvertures d'aération situées à l'arrière ou en dessous. Afin d'empêcher la surchauffe. ces ouvertures ne doivent pas être obstruées en plaçant l'appareil sur un lit, divan, tapis ou autre surface similaires. Ne placez pas cet appareil à proximité d'un élément de chauffage ni d'une plinthe électrique. De plus. ne l'installez pas dans une unité murale ou un cabinet fermé qui ne possède pas d'aération adéquate.
- 7. Ne faites fonctionner cet appareil qu'avec le type d'alimentation indiqué sur les étiquettes de l'appareil. Si vous ne connaissez pas le voltage de votre maison, consultez votre marchand ou votre fournisseur d'électricité.

- 8. Ne déposez rien sur le cordon d'alimentation Installez cet appareil dans un endroit sécuritaire, là où personne ne pourra rébucher sur la ligne d'alimentation ni le cordon téléphonique modulaire.
- N'insérez jamais d'objets à travers les fentes et ouvertures de cet appareil, car ils pourraient toucher à des points de tension dangereux ou court-circuiter des pièces. ce qui constituerait un risque d'incendie ou d'électrocution. N'échappez pas de liquides dans l'appareil.
- 10. Afin de réduire les risques d'électrocution, ne démontez pas l'appareil, mais apportez-le plutôt à un centre de service qualifié s'il doit être réparé. En enlevant le couvercle, vous vous exposez à des tensions dangereuses ou autres dangers similaires. Un remontage inadéquat peut être à l'origine d'une électrocution lors d'une utilisation ultérieure de l'appareil. Débranchez l'appareil avant de procéder au nettoyage. Utilisez un chiffon numide et doux.
- 11. Ne surchargez pas les prises de courant et les rallonges.
- 12. Débranchez cet appareil de la prise de courant et communiquez avec le département de service à la clientèle de VTech dans les cas suivants:
- endommagé ou écorché. Si du liquide a été échappé dans

Lorsque le cordon d'alimentation est

- Si l'appareil a été exposé à une source d'humidité telle que la pluie ou l'eau. Si le produit ne fonctionne pas
- normalement en respectant les instructions de fonctionnement. Réglez uniquement les commandes indiquées dans le les instructions de fonctionnement. Les réglages incorrects des autres commandes pourraient provoquer un dommage qui pourrait exiger un travail exhaustif de la part d'un technicien autorisé afin de rétablir le

fonctionnement normal de l'appareil

 Si le produit a été échappé et que le socle et/ou le combiné a été Si le produit affiche une nette diminution

de sa performance.

- 13. Évitez d'utiliser un téléphone (autre qu'un sans fil) pendant un orage. Les éclairs peuvent être à l'origine d'une électrocution N'utilisez pas le téléphone pour rapporter
- une fuite de gaz à proximité de la fuite. En certaines circonstances, une flammèche pourrait être provoquée lorsque l'adaptateur cardiaque. est branché à une prise de courant, ou lorsque le combiné est déposé sur le socle

- Ceci est un événement commun associé à la fermeture d'un circuit électrique. L'utilisateur ne devrait pas brancher le téléphone à une prise de courant, et ne devrait pas déposer le combiné chargé sur le socle, si le téléphone se trouve à proximité d'un endroit comportant des concentrations de gaz inflammables, à moins que la ventilation soit adéquate. Une flammèche dans ur tel endroit pourrait provoquer un incendie ou une explosion. De tels environnements peuvent comprendre: des endroits où l'on utilise de l'oxygène médical sans ventilation adéquate; des gaz industriels (dissolvants de nettoyage, des vapeurs d'essence, etc.);
- une fuite de gaz naturel, etc. 15. Ces adaptateurs ont été conçus pour être orientés en position verticale ou montés au sol. Les broches ne sont pas conçues pour maintenir l'adaptateur en place si celui-ci est barnché dans une prise au plafond ou sous une table/ armoire.

CONSERVEZ CES INSTRUCTIONS

- MISE EN GARDE : N'utilisez que la pile
- Ne jetez pas la pile au feu. Vérifiez les instructions spécifiques de mise aux rebus auprès des autorités locales. N'ouvrez pas et ne mutilez pas la pile.
- L'électrolyte qui s'en échapperait est corrosif et nourrait causer des brûlures ou des blessures aux yeux ou à la peau. L'électrolyte est toxique si avalé.
- Soyez prudents lorsque vous manipulez les piles afin d'éviter les courts-circuits provoqués par des matériaux conducteurs. Rechargez la pile incluse avec cet appareil,

selon les instructions et limites spécifiées dans ce guide d'utilisation. Stimulateurs cardiaques implantés dans

Les simulateurs cardiaques (s'applique uniquement aux téléphones numériques sans fil): L'organisme 'Wireless Technology Research, LLC (WTR)', une firme de recherche indépendante. a mené une évaluation pluridisciplinaire des interférences entre les téléphones sans fil portatifs et les stimulateurs cardiaques implantés dans l'organisme. Appuyée par l'Administration des aliments et drogues (FDA) des États-Unis, la firme WTR recommande aux médecins:

Avis aux détenteurs de stimulateurs Ils doivent tenir le téléphone sans fil à une

distance d'au moins six pouces du stimulateur

Ils ne doivent PAS placer le téléphone sans fil directement sur le stimulateur cardiaque tel que dans une poche de chemise, lorsque celui-ci est en marche

Ils doivent utiliser le téléphone sans fil en l'appuyant sur l'oreille qui se trouve dans la direction opposée au stimulateur cardiaque L'étude effectuée par l'organisme WRS n'a pas identifié de risque pour les détenteurs de

simulateurs cardiaques causés par les gens qui

utilisent un téléphone sans fil à proximité de ceux-ci. À propos des téléphones sans fil

- Alimentation électrique: Les mêmes caractéristiques qui constituent des avantages pour les téléphones sans fil affichent égalemen des restrictions. Les appels téléphoniques sont transmis entre le combiné sans fil et le socle par le biais d'ondes radio ; il y a donc la possibilité que vos conversations téléphoniques sans fil soient interceptées pa des équipements de réception radio se trouvant dans la portée du combiné sans fil. Pour cette raison, vous ne devez pas percevoir les communications téléphoniques sans fil comme
- étant aussi confidentielles Alimentation électrique: Le socle de ce téléphone sans fil doit être branché à une prise électrique fonctionnelle. La prise électrique ne doit pas être contrôlée par un interrupteur mural. Les appels ne pourront pas être effectués du combiné sans fil si le socle est débranché ou mis hors tension ou si le courant est coupé.
- Possibilité d'interférences aux téléviseurs: Certains téléphones sans fil fonctionnent sur des fréquences pouvant causer des interférences aux téléviseurs et aux magnétoscopes. Pour réduire ou prévenir de telles interférences, ne placez pas le socle du téléphone sans fil près ou sur un téléviseur ou magnétoscope. S'il y a présence de parasites. il est conseillé d'éloigner le téléphone sans fil du téléviseur ou du magnétoscope afin de réduire possiblement les interférences.
- Piles rechargeables: Manipulez les piles avec soin afin de ne pas les court-circuiter avec des baques, bracelets ou clés. Les piles ou le conducteur peut surchauffer et causer des blessures. Respectez la polarité adéquate entre la pile et le chargeur. Les bloc-piles rechargeables à au
- lithium-ion: Jetez ces blocs-piles de manière écologique et sécuritaire. Ne les incinérez pas et ne les percez pas. Tel que les autres piles de ce type, elles pourraient dégager une matière toxique qui peut causer des blessures corporelles si elles sont brûlées ou percées.
