speaker with transformer

G86TG2X2C

8" dual paper cone 2'x2' ceiling tile
speaker with transformer & volume control

Speco Technologies is proud to offer the most versatile speaker in the market: One speaker, available with 10 mounting styles. Choose from Classic Round, Modern Round, Classic Square, 1'x2' & 2'x2' Classic Ceiling Tile speakers – all available with a volume control knob. These new designs are matched with the same high-performance sound quality as our legacy models; for the same economical price.

Classic Ceiling Tile Speaker: Incredibly quick installation eliminates the need for a tile bridge or to cut tiles.
