ZVC S40-C5U Zoom Rooms System

Zoom Rooms System for Small and Medium Meeting Rooms

The Yealink ZVC S40-C5U is a cutting-edge solution for Zoom Rooms, designed to enhance collaboration and is ideal for small to medium-sized meeting spaces. This set includes the new generation mini-PC MCore 4, the large-screen touch panel MTouch Plus, the SmartVision 40 all-in-one smart audio-video device, and the intelligent detection sensor RoomSensor, working in unison to enable seamless automation and intelligent integration within conference rooms.

Powered by the Intel Ultra5 125H processor, the MCore 4 delivers outstanding data processing capabilities and mighty AI computing power, offering every participant an immersive video conferencing experience. The SmartVision 40, as an integrated audio-video device, boasts dual 48MP lenses and a 6-meter voice pickup range, supporting cutting-edge tracking features such as IntelliFocus, Intelliframe, and Video Fence, ensuring that no detail is overlooked. Additionally, to streamline meeting control, the MTouch Plus features an 11.6-inch touch interface for intuitive device operation. The RoomSensor intelligently detects the occupancy status of the meeting room and simultaneously displays real-time environmental metrics, such as temperature and humidity, on the MTouch Plus interface, delivering intelligent room management solutions. The ZVC S40-C5U bundle supports both wired and wireless screen sharing, enabling participants to share content effortlessly and enhance collaboration. Meanwhile, the system's simple deployment and remote management capabilities make it easy to install and maintain, reducing setup time and operational complexity.

Key Features and Benefits

Seamless Meeting Experience with Native Zoom Rooms Integration

The entire ZVC S40-C5U bundle is equipped with a native Zoom Rooms user interface, ensuring a familiar and intuitive experience for users. The MTouch Plus touch panel provides easy access to one-click conferencing, call control, camera adjustments, and content sharing. At the same time, the RoomSensor automatically wakes up the system as participants enter the room. This seamless integration ensures that meetings start effortlessly and run efficiently, enhancing productivity and collaboration.

Ultra HD picture quality and artificial AI features

The SmartVision 40 utilizes a dual-lens fixed-focus stitching technology, combining images from two lenses to achieve a higher pixel density and deliver obvious, sharp visuals. It supports a range of AI tracking modes, such as IntelliFocus, IntelliFrame, and Video Fence, to address diverse meeting requirements. With these advanced features, the SmartVision 40 automatically detects speakers in the room, frames them, and displays the images of active speakers on the screen, creating a more intuitive and interactive remote meeting experience.

High-quality audio pickup experience

SmartVision 40 has a 6-meter voice pickup range, built-in stereo speakers, 3-meter full-duplex technology, and an 8x MEMS microphone array. The intelligent noise-reduction technology provides a good audio experience. Additionally, it can support two additional expansion microphones, which can cover a large conference room.

Outstanding Data Processing Capability

At the core of the ZVC S40-C5U is the MCore 4, powered by the Intel Ultra5 125H processor, which boasts exceptional data processing capabilities and powerful AI computing capabilities with its NPU. It ensures smooth and efficient meetings, enabling intelligent conferencing features. The MCore 4 empowers smart meeting rooms, providing a stable and efficient operating environment for immersive remote communication.

Real-Time Content Sharing for Enhanced Collaboration

The bundle supports both wireless and wired content sharing for maximum flexibility. Wireless content sharing is made simple with the Yealink sharing dongle, which supports wireless sharing at 1080p/30fps resolution for a superior viewing experience. Wired content sharing is supported by connecting the MTouch to a USB-C or HDMI port on a laptop using the MTouch cable. Additionally, the MCore 4 is equipped with an HDMI-In interface, supporting 4K resolution auxiliary stream input to ensure lossless image presentation, further enhancing the content sharing experience.

Simple Deployment and Easy Use

A single CAT5e cable is sufficient to connect the MCore 4 and MTouch Plus, enabling both data transmission and power supply without the need for additional cables or power sources. Additionally, the RoomSensor operates via Bluetooth (BLE), eliminating the need for extra cables.

Remote Device Management

These devices can support the Yealink Device Management Platform/Cloud Service, enabling remote management, monitoring, configuration, updates, and diagnostics of all connected devices. This feature ensures that your meeting room is always up-to-date and operating at peak performance.
